We will continue to work on the new Kingston Arts Precinct, and increase funding for arts organisations and centres by 25% in the next term.

We will also identify a fit-for-purpose space for our smaller craft communities.

And we will provide additional support for CMAG to increase their collections.

More support for local artists & arts projects

We will increase Government funding to local artists and arts projects by 50 per cent.

We will commission two public artworks of significant women and/or non-binary figures.

Labor will also commission work on our iconic bus shelters, and invest in murals across the city from Tuggeranong to Belconnen.

We will work towards having Canberra recognised by UNESCO as an International City of Design.
